GAZETTEER

OF THE

BOMBAY PRESIDENCY.

VOLUME XXIII-B.

BIJA'PUR, JATH AND DAFLA'PUR.

UNDER GOVERNMENT ORDERS.

BOMBAY
PRINTED AT THE GOVERNMENT CENTRAL PRESS
1913

PREFACE.

Volume XXIII of the Bombay Gazetteer was issued in 1884. In 1904 Volume XXIII-B, which consisted of a collection of tables with introductory notes, was issued with a view to supplementing the parent volume with more recent statistics. The present volume contains information up to the year 1911.

G. S. HARDY.

Bombay, August 1913.

BIJA'PUR.

BIJA'PUR.

Area.—In 1885 an area of 85 square miles was transferred from the Bádámi Táluka to the Ron Táluka of the Dhárwár District. Again in 1905-06, the village of Kanmadi with an area of 37¼ square miles was transferred from the Athni Táluka of the Belgaum District to the Bijápur Táluka. These changes and the measurement of the survey carried out since 1874 have reduced the area of the district by 50 square miles, from 5,757 square miles (1881) to 5,707 square miles in 1910-11.

Important Public Works.—A Branch of the M. & S. M. Railway opened in 1885 which runs through 5 out of the 8 tálukas of the district traverses from North to South, connecting the G. I. P. Railway at Hotgi with the main line of the M. & S. M. Railway at Hubli. In 1910-11 there were 83 miles of metalled road and 422 miles of road suitable for fair weather traffic in the district. The new roads and works of importance constructed since 1875 are as follows :—

Name of work.	Service head.	Cost.	Year of completion.
		Rs.	
Muchkundi Tank ...	Imperial Irrigation.	1,58,707	1884
Granary converted into public offices at Bijápur.	Provincial Civil ...	56,994	1888-89
Civil Hospital at Bijápur.	Do. ...	48,084	......
High School at Bijápur .	Provincial ...	48,280	1902-03
Almel-Shiradhon Road, miles 48½.	Do. ...	46,533	1908-09

Factories.—The location and nature of the factories in the district in 1911 and the number of operatives employed are shown below :—

Town.	Factory.		Operatives.
	No.	Kind.	
Bijápur	7	Cotton Ginning and Pressing.	440
Bágalkot	2	Do. ...	194

Famine.—In 1892 there was slight scarcity in the district, which was tided over without recourse to elaborate measure of relief. Famine occurred in 1896-97 mainly due to failure of crops in the affected tracts from want of seasonable rain. The area affected was 5,627 square miles. Relief works were opened, and were continued for 14 months. The maximum daily average number relieved was 134,197 in September. In 1899-1900 the rains again failed, and the district was affected by scarcity, the outturn of crops being 13 per cent. The area affected was 3,100 square miles. Relief works were opened in September 1899, the daily average number of workers being 175, and were continued till October 1902. The maximum daily average number relieved was 24,598 in April 1900, and 5,140 were gratuitously relieved. Special relief was also given to weavers in their own craft during the famine. The death-rate *per mille* in the district during the year was 34·51. The total number of deaths from all causes on relief works was 465, of which 40 were due to dysentery and diarrhœa and 89 to cholera. The percentage proportion of sexes and children among the relief workers in the district was 32 men, 46 women and 22 children. The average wage per worker unit was Re. 0-1-5. In 1900-01 famine again occurred, the area affected being 3,810 square miles. The highest daily average number was 36,474 in August, 8,952 being in receipt of gratuitous relief in October. In the following year the condition of the district was much the same as in 1900-01, 3,823 square miles being affected by scarcity. The maximum daily average number on relief was 23,356 in August 1902, 10,626 being gratuitously relieved. The death-rate in the district during the year was 24·24. There was a famine in 1905-06 mainly due to the premature cessation of the earlier and the almost complete failure of the later rains. The whole district was affected. Relief works were opened and were continued from December 1905 to the end of October 1906. The maximum daily average number relieved was 18,830 in May 1906. On the whole the public health was fair. In April, May, June and July the death-rate was higher than in other months, the increase being respectively 1·29, 2·22, 2·33 & 1·29 per 1,000 above the normal. This was due to cholera and fever. In 1907-08 there was a slight scarcity in two tálukas of the district; this was tided over without recourse to elaborate measures of relief. Gratuitous

relief was given and the daily average number relieved was 717. The death-rate was normal.

Plague.—The number of deaths from plague from 1897-98 to 1910-11 was as follows :—

Year.	Number of deaths.	Year.	Number of deaths.
1897-98	28	1904-05	22,107
1898-99	1,896	1905-06	384

JATH.

JATH.

Area and Population.—The State was formerly under the Sátára Agency till 1887 when it was transferred to the control of the Collector and Political Agent, Bijápur. It was next transferred to the control of the Political Agent, Southern Marátha Country in the year 1891. It has been under the Collector of Bijápur since 1901-02 The State pays annually to the British Government, a commuted allowance of Rs. 6,400 in lieu of Horse Contingent and Rs. 4,847 on account of Sardeshmukhi rights.

The State has an area of 884 square miles containing 113 villages with a population as under :—

Year.	Male.	Female.	Total.
1891 ...	36,238	35,205	71,443
1901 ...	31,077	30,791	61,868
1911 ...	35,620	34,190	69,810

Out of the total population, 93 per cent. are Hindus, 6 per cent. Musalmans and the rest Jains. The Head-quarter town is Jath with a population of 4,933 persons.

Agriculture and Land. Revenue.—There are 113 villages in the State, of which 100 are 'Khálsa' and 13 'Dumala.' The survey of the Khálsa villages was completed in 1879-80 and the survey settlement applied to them. Out of the 13 Dumala villages, 12 have been surveyed and settled. The village, Kagasta, still remains unsurveyed owing to the Dumaldar's unwillingness to have the Survey Settlement introduced in it. The guaranteed period of settlement having expired in 1909, proposals for carrying out revision survey operations were contemplated in 1909. The cost of these operations was estimated to amount to nearly Rs. 50,000. After a careful consideration of the question it was finally decided by the Commissioner, S. D., and the Political Agent with the concurrence of the Chief, that instead of undertaking the elaborate and expensive operations of Revision Survey, the existing assessment in the State should be raised by 25 per cent. all over from the beginning of the year 1910-11.

Out of the total area of 565,457 acres, 61,484 acres are unarable land and 503,973 acres arable. The total area of forest land is 27,343 acres, of which 3,716 acres are forest reserve, the remaining area of 23,627 acres being land assigned for grazing. Of the arable land, 10,948 acres are culturable waste.

Tagávi advances made during the last 10 years are given below :—

		Rs.
1901-02	... ...	20,401
1902-03	... ...	27,318
1903-04	... ...	515

1906-07	1,338	4,235	5,573
1907-08	3,542	3,309	6,851
1908-09	4,219	7,525	11,544
1909-10	7,362	6,262	13,624
1910-11	3,258	4,349	7,607

Famine.—The State suffered from scarcity of fodder and food in 1896-97. Relief measures were taken in November 1896, when 11 works were opened. In all over Rs. 70,000 were spent on famine relief, and Rs. 1,08,381 were granted as tagávi. A poor-house was opened at Jath, where the daily average number of persons fed was 364. The following year the rainfall was again deficient, and relief-works were therefore continued up to the end of October 1897. Over Rs. 1,22,000 were spent on relief-works in this year. The principal relief-work was the construction of the Chikalji tank. The daily average on the works was over 8,000. The number in the poor-house at Jath rose to 538, and 66 persons were relieved in their homes. Tagávi advances were made to the extent of Rs. 28,000. The ordinary resources of the State being insufficient to meet this extra expenditure, the State borrowed Rs. 75,000 from the Government and Rs. 75,000 from the Jamkhandi State. The season of 1898-99 was unfavourable; severe famine again occurred in 1899-1900. In November 1899 relief-works were once more opened, followed by the other forms of relief already enumerated. A loan of Rs. 25,000 was obtained from the Sángli State, and Rs 1,40,000 from Government. Rs. 83,000 were spent on relief-works and Rs. 12,000 on gratuitous relief. The average number of relief-workers was 11,461, those in receipt of village relief being 76 and poor-house inmates 151. The cost of famine up to June 1900 amounted to Rs. 98,000 exclusive of Rs. 2,000 received from the Indian Charitable Fund. Relief measures were continued for two years longer. In 1900-01 Rs. 3,36,842 were spent on relief-works. The total number of units relieved during the year was 3,698,076. The highest number was in April, *viz.*, 539,412. Besides the amount spent by the State, Rs. 11,150 were contributed by the Indian Famine Relief Committees. In the year 1901-02 Rs. 1,35,651 were spent on relief-works. In the year 1902-03 a further sum of Rs. 3,946 was spent on relief and Rs. 27,318 granted as tagávi. In 1900-01 the State again obtained loans, *viz.*, Rs. 2,00,000 and Rs. 1,25,000 from Government and the Jamkhandi State.

In 1905-06, owing to the scanty and inopportune rainfall, both rabi and kharif crops totally failed throughout the State and the out-turn was estimated to be one-anna in the rupee. Scarcity was first felt in the month of September 1905 and the labouring classes then asked for labour. Works, such as repairing roads, digging wells and the reclamation of disforested lands were commenced on ordinary wages, and the number of workers rose to above 800 by the end of November 1905. In December 1905 test works were opened and the code wages introduced which reduced the number of workers to 130 in January 1906. In that month regular relief-works were opened, and the number of workers and dependents rapidly rose, respectively, to 1,656 and 461. By the end of April 1906, the total number of workers rose to 2,225. Famine relief-works were carried out in the State under the supervision of the Public Works Department, Bijápur. The principal works opened were the construction of the Hospet tank and the Muchandi road. The total famine expenditure during the year 1905-06 up to June 1906 amounted to Rs. 30,696 and the total number of units relieved including dependants during the year was 3,20,278. A famine kitchen was opened at Jath on the 25th March 1906 and was closed by the end of July. In 1906-07 Rs. 28,410 were

spent on famine relief. No famine works were started during the year 1907-08 but some small test works were opened from August to November to give employment to the people who were really in need of relief. Owing to the lateness of the rain in June 1908, it was found necessary to give doles in Jath town and in 10 other villages of the State. The amount spent for this purpose was Rs. 681. There was no famine or distress in the State in the years 1909-10 or 1910-11.

Epidemics.—Plague did not appear in the State in epidemic form till the year 1902-03, though some suspicious cases were observed in 1897-98 and 1901-02. The figures of plague mortality since 1902-03 are given below :—

Year.			Plague.	
			Attacks.	Deaths.
1902-03	...	..	149	116

1909-10	...	...	...	...
1910-11	...	...	...	...

General.—There is no Military force in the State. The Police force consists of 97 men, including 4 Sowárs and 1 Camel-driver. The Jail building was commenced in 1894-95 and completed in 1898-99 ; it cost Rs. 10,020 and accommodates 100 prisoners. The daily average of inmates was 41 maintained at a cost of Rs. 2,121 in 1910-11. There is only one Municipal town, *viz.*, Jath with an annual income of Rs. 2,692. It was constituted a Municipality in 1892-93. Yearly amounts of Rs. 1,118 and Rs 3,213 are received from Government as compensation for salt and abkári concessions. The State receives Rs. 661 annually from Government as compensation for the lease of hemp drugs revenue. A yearly contract for the right to sell opium in retail is given by the State. The license holder procures opium from a British Depôt. There is a dispensary at Jath with a daily average of 60 patients and maintained at a cost of Rs. 2,222.

The number of patients treated during the last ten years is given below :—

1901-02	...	...	6,860
1902-03	...	...	4,825
1903-04	...	...	4,661
1904-05	...	...	5,815
1905-06	...	...	8,508
1906-07	...	...	6,297
1907-08	...	...	6 045
1908-09	...	...	7,837
1909-10	...	...	7,971
1910-11	...	...	8,222

The State possesses 31 primary schools, of which one is for females. The number of pupils attending is 1,103. Primary education is free in the State and a compulsory school has been opened in Jath town as an experimental measure.

DAFLA'PUR.

B 1584—7

DAFLA'PUR.

Area and Population.—The State was under Sátára Agency till 1887. From 1888 to 1891 it was under the Bijápur Agency when it was transferred to the Political Agent, Southern Marátha Country. In 1901-02 it was re-transferred to the Bijápur Agency. The area of 40 square miles estimated before the survey operations has now been corrected as 97 square miles. The State contains 6 villages for the present with 1,781 houses and a population as under:—

Year.	Males.	Females.	Total.
1891	4,338	4,005	8,343
1901	3,466	3,331	6,797
1911	4,514	4,319	8,833

Of the total population of 8,833, 8,282 or 93 per cent. are Hindus 551 or 6 per cent. are Musalmans and 12 Jains.

Agriculture and Land Revenue.—The Survey Settlement was introduced in 1870 and completed in 1882 throughout the State. No. revision of the Survey Settlement has yet taken place. Of the total area of 57,760 acres, 57,436 acres are arable land, the remaining 324 acres being unarable. The principal crops of the State are jowári, bájri, cotton, wheat and linseed. There is no forest land in the State. The average rainfall is 19 inches.

Trade and Manufacture.—The imports are chiefly raw sugar, rice and spices, and exports consist of cotton, betel leaves, turmeric and food grains. The Miraj-Jath road lying within the limits of the State connects the State with Miraj Railway Station and with the trade centres of Miraj and Sangli States.

Famine and Plague.—Since the year 1896-97 the State has frequently suffered from scarcity owing to scanty rainfall. Special relief was given in 1896-97 at a cost of Rs. 4,000. Two bad seasons succeeded, and the State suffered from severe famine in 1899-1900 when the crops entirely failed. To meet the famine expenditure the State contracted a loan of Rs. 12,000. The average number, relieved by the State was 200. Rs. 3,000 were spent during the year on relief and tagávi. The next two years, 1900-01 and 1901-02, were equally unfavourable. The amount spent on relief and tagávi during these two years amounted to Rs. 4,419 and 7,196 respectively.

The year 1904-05 was one of scarcity and that of 1905-06 was of famine, and for relief measures a loan of Rs. 7,000 was raised by the State. The year 1910-11 was also one of scarcity, but during the year there was no necessity to raise a loan. Plague, after a few scattered cases, assumed epidemic form in 1902-03. In that year 107 deaths occurred in Daflápur. There was slight plague in State in the 1903-04 and 1904-05.

General.—The State Police force numbers 19 maintained at an annual cost of Rs. 1,020. The jail at Daflápur had no prisoners during 1910-11. The cost of maintaining the Jail was Rs. 36. There is no dispensary in the State. 134 children were vaccinated during tho year 1910-11. There are three vernacular schools for boys with 118 pupils maintained at an yearly cost of Rs. 329. There is no Municipality in the State. The Abkári (liquor, toddy and ganja) and Salt Departments of the State have been leased to Government for an annual compensation of Rs. 331, *viz.*, Rs. 187 for toddy, Rs. 30 for ganja and Rs. 114 for salt.
